

Are you ready to dance with us at Butterfield Dance Company?

As a reminder this should only be used a guide.

Each child learns, grows, and dances at different rates.

Our promise is to provide quality instruction and develop a love of dance!

Don't give up if...

Your dancer walks into the classroom independently

Dancer participates when he/she is invited to join an activity

Dancer talks about dance at home

Dancer dances and does class activities at home

As their parent: Continue to support and nurture their love of dance

As their teacher: We promise to promote positive behavior, encourage creativity, and skill building

Maybe needs a change if:

They are crying on the way to dance and this behavior does not end after 3-4 weeks

Teacher has to take the dancer from parents arms after 3-4 weeks

Dancer is extremely distracted or upset by other students after 203 weeks

As a parent: Please reach out to the teacher and Early Childhood Supervisor

As their teacher: We will work with you make the correct change to benefit the dancer

Change could be:

A parent tot class for our younger students

More time before the dance tries class again

Class on a different day of time of class

Choosing a creative movement option or non-recital class

As the parent: Please be patient as they explore new classes

Parent tot classes are amazing!

As the teacher: We promise to encourage the correct placement for your dancer

Any Questions about registration or the programs
